## **SOUTHERN CALIFORNIA EDISON COMPANY (SCE)**

### **NOTICE OF ENERGY RESOURCE RECOVERY ACCOUNT (ERRA) APPLICATION FILING IN A.11-08-002**

### **PROPOSAL TO INCREASE YOUR ELECTRIC RATES**

In compliance with California Public Utilities Commission (CPUC) decisions, Southern California Edison Company (SCE) has filed an Energy Resource Recovery Account (ERRA) forecast application. This application is referred to as A.11-08-002.

In this application filing, SCE is requesting the Commission to authorize SCE's 2012 ERRA proceeding revenue requirement in the amount of \$4.081 billion, which represents an increase of \$806.8 million from the ERRA revenue requirement included in 2011 rate levels. The ERRA proceeding revenue requirement consists primarily of SCE's proposed 2012 fuel and purchased power costs. However, it also includes: (1) the currently estimated December 31, 2011 year-end recorded balancing account balances that SCE requests to recover from or return to customers, and (2) other miscellaneous expenses, such as spent nuclear fuel expense and Department of Energy decontamination and decommissioning fees.

Compared to revenues at present rates as of June 1, 2011, this application requests a revenue increase of \$4.2 million, or 0.04%, beginning in 2012. **If the Commission should approve total rates as requested, an average residential electric customer using 600 kilowatt-hours per month would expect to see an increase of \$0.19 per month, from \$101.98 to \$102.17.** The following table shows current rates compared to an estimate of proposed revenue and rate changes by customer group.<sup>1</sup>

---

<sup>1</sup> Because the revenue change impact in ¢/kWh is minimal (i.e., below one percent), the change from present to proposed ¢/kWh is not clearly visible in the table set forth below.

## **EVIDENTIARY HEARINGS**

The CPUC may hold evidentiary hearings whereby formal parties of record provide testimony and are subject to cross-examination before a CPUC Administrative Law Judge (ALJ). These hearings are open to the public, but only those who are formal parties of record may participate. The CPUC has its own court reporters who will record the comments of those formal parties of record participating in the evidentiary hearings. After considering all proposals and evidence presented during the formal hearing process, the assigned ALJ will issue a proposed decision. When the CPUC issues a final decision on the application, it may adopt, amend, or modify all or part of the ALJ's proposed decision as written. The CPUC's decision may be different than SCE's request.

The Division of Ratepayer Advocates (DRA) is an independent arm of the CPUC, created by the Legislature to represent the interests of all utility customers throughout the state to obtain the lowest possible rates for service consistent with reliable and safe service levels. DRA has a multi-disciplinary staff with expertise in economics, finance, accounting, and engineering.
