ACTION ITEMS

1. Provide information to PRG on how many contracts have “payback” provision at the end of the term.
2. Provide information to PRG on which of the transmission delayed projects have provided liquidated damages to extend COD.
3. Provide information to PRG on when SCE files or provides the annual report on gas hedging to the CPUC.
4. Provide more detail regarding the viability of projects listed on slide #20 titled Contracts in Default or Performance Challenged in the RAP, QF & CHP Contract Activities presentation.

Suggestions for future PRG meeting presentations:

Include long-term demand forecast deep dive.

Include 111D EPA GHG regulations.

Market Update presentation:

- Slide 4 – make Y axis units clear & also consistent labeling of DA-RT or RT-DA in the title and X axis key.
- Slides 7/8 – would be helpful to provide order of magnitude of how much is in market as % of load

Incorporate activity report slides into power and gas deep dive presentations.
